No. 36.—In exercise of the powers conferred by section 88 of the Madras Port Trust Act, 1909 (II of 1909), the Local Government appoints the following by-law framed by the Board, Madras Port Trust, under sub-section (5) of section 85 of the said Act regarding the bunkering of vessels with petroleum liquid fuel at the West Quay of the Madras Harbour.

BY-LAW.

Bunkering of vessels with petroleum liquid fuel at the West Quay by means of the Board's service pipe line, will be allowed subject to the conditions specified hereunder, namely:—

(1) During all such time as any vessel is receiving liquid fuel via her bunkers, the Master or Pilot Mate of such vessel shall be present on board. It shall be his duty to see that the conditions specified in this by-law are complied with and that all reasonable precautions for safety are observed.

(2) A shore officer shall be on watch and an attendants shall be stationed alongside the flexible connecting pipe while bunkering is in progress.

(3) Supplies of liquid fuel shall be responsible for seeing that all flexible pipes used for bunkering purposes are tested to a pressure of one lb. per square inch, before operations commence, and that all pipes are airtight; that after the completion of such bunkering operations the Port Trust section of the pipeline is closed and that when flexible pipes are disconnected any unutilized bleedings at the quay is properly cleaned up with sand. Ship's officers in charge of vessels receiving bunkers are the responsible for seeing that all valves in ship's tanks or sometimes not properly regulated to shut, are closed to prevent the possibility of a sudden increase in pressure which may cause a leak in the flexible pipe or elsewhere and a consequent leakage of oil. Owners of vessels receiving bunkers, and suppliers, shall be mutually responsible for seeing that bunkering operations are conducted with cleanliness and in an orderly manner and any damage resulting from neglect of all proper precautions shall render them liable under clause (4) below.

Fort St. George, December 25, 1924.

No. 268.—The Governor in Council hereby notifies under the provisions of section 24 of the Indian Forest Act, 1907, that the area specified in the schedule below, which was declared to be reserved forest under section 16 of the Act in Notifications Nos. 428, dated 21st December 1907, published on page 1227 of Part I of the Fort St. George Gazette, dated 22d December 1908, shall cease to be reserved forest with effect from 1st February 1925.

## SCHEDULE.

NAME of reserves or portions of reserves to be delineated.—Portion of extension No. 1 of Nandivaram reserved forest. Area—63 acres.

## DESCRIPTION.

North—Starting from the north-west corner of survey No. 431 of Nandivaram village the line runs north, along the north side of survey Nos. 431 and 428 of the said village to a distance of 20 chains.

East—From the last mentioned point the line runs north to the north-east corner of survey No. 428 of the said village.

The line of the village which the reserved forest, some enclosures in villages and gardens is to be kept (or much kept).

amount Rs. 25 lakhs in a year. But the Tariff Board reports the continuance of heavy stocks of imported steel in India, and that these stocks are enhanced, the industry could not derive the full advantage of the new tariff. A further objection to the proposed duties is that, if the duties on unfinished steel are increased, it is necessary to go further and also to increase the duties on fabricated steel.

4. In these circumstances, the Government of India have decided that the further assistance which the Board reports to be necessary would more appropriately take the form of bounties. The protective duties imposed in June last have brought in more revenue than was anticipated. Up to the 31st October last, the total receipts from these duties amounted to 26 lakhs, and it is anticipated that if adjustments be made for the commitments of the Government of India in respect of the bounties contemplated by sections 3 and 4 of the Act, it is probable that there will be a considerable net surplus of revenue from these protective duties as compared with the estimate framed when the duties were imposed. The Government of India therefore propose to amend the protective duties as much as it seems in January next that the protection now afforded to the industry should be supplemented by bounties. The exact form which these bounties will take and other questions connected with the best method of working the system will require detailed consideration, but the duties seem to be better bounties on the different classes of raw steel specified in paragraph 3 above at rates equivalent to the additional duties proposed and bounties on finished steel produced in India as indicated as to give approximately the same financial return to the industry. As at present advised, the Government of India are in favour of the latter alternative, and their recommendation will probably take the form that the bounty should amount to Rs. 25 per ton on finished steel produced in India. They are further of opinion that these bounties should be given for one year from the 1st October to 30th September next, that they should be subject to a limit of Rs. 10 lakhs, and that before the period indicated expires, the whole matter should be reviewed in the light of the circumstances then prevailing in order that it may be decided before the expiry of the current session whether it is necessary or advisable to place such proposals before the Assembly.

5. The Tariff Board was provided by its terms of reference from considering any form of protection other than that now proposed by section 2 of the Steel Industry (Protection) Act. But the Government of India have recommended that the Board warmly approve of the additional protection, which it has found to be necessary, taking the form of bounties.

G. T. H. BRACKEN,  
Secretary to Government.

Port St. George, November 27, 1928 (G.O. No. 272, L. &amp; M.).

No. 1753.—Under the existing law, orders and rules specified below, local boards and municipal councils should not divert the following earmarked funds even temporarily for other purposes without the previous sanction of the Government:—

Name of earmarked fund.	Order establishing fund.
(1) Water and drainage tax fund—municipal councils.	G.O. No. 302, L. & M., dated 14th February 1922.
(2) Dipsala (including provident funds)—municipal councils.	Do. do.
(3) Lighting tax fund—municipal councils.	G.O. No. 2759, L. & M., dated 7th December 1923.
(4) Local funds—local boards and municipal councils.	G.O. No. 2344, L. & M., dated 24th November 1921.
(5) Special Provident funds—municipal councils.	G.O. No. 1963 M., dated 13th December 1922.
(6) Elementary education fund—local boards and municipal councils.	G.O. No. 978, Law (Education), dated 16th June 1924.
(7) Capital receipts from sale of capital assets—local boards.	G.O. No. 1490, L. & M., dated 21st July 1921.
(8) Capital receipts from sale of capital assets—municipal councils.	G.O. No. 778, L. & M., dated 16th May 1921.
(9) Endowments—local boards.	Instructions (B) of Local Boards Manual.
(10) Do. municipal councils.	Articles 15 and 165 of the Municipal Account Code.
(11) Railway loan fund—local boards.	Section 334 of the Local Boards Act.
(12) Do. municipal councils.	Section 31 (1) (c) of the Madras District Municipalities Act.

The simplified form of accounts prescribed in G.O. No. 248, L. & M., dated 23rd January 1924, provides a separate account for each of the above funds. The receipts, charges and balance of each fund are kept distinct. In G.O. No. 978, Law (Education), dated 16th June 1924, the Government have ordered that a separate banking account for the elementary education fund should be maintained. The question of having separate banking accounts for all funds has been considered by the Government. In view of the additional work involved thereby not only in the offices of local bodies but also in the treasury the Government do not propose to make any change.

2. The Local and Municipal Group Conferences held at Vungpukara on 28th to 30th October 1931, recommended that municipal councils should be allowed to make temporary appropriations for general expenditure from all funds on condition that they are re-adjusted before the close of the official year. The Local and Municipal Group Conferences held at Vallur on 6th and 7th November 1931 made the same recommendation. This conference recommended that in the alternative the provincial grants towards the maintenance of trunk roads and elementary schools may be paid in advance instalments.

3. The Government have recently taken the following measures in order that local bodies may have sufficient funds for expenditure throughout the year:—

(1) From 1st April 1931 district boards and municipal councils are allowed to recover monthly the expenditure incurred on trunk roads to the extent of 75 per cent of the maximum provincial grant admissible for the purpose, the balance being disbursed in the beginning of the following year on receipt of the Superintending Engineer's report.

(2) District boards are allowed to recover monthly the expenditure on the maintenance of second-class roads to the extent of 80 per cent of the maximum grant and the balance of the grant is disbursed at the end of the year.

(3) Each local board is credited on the 15th of each month with one-twelfth of the estimated annual receipts from the taxes and other revenues collected by the Government on behalf of the board, the necessary adjustment being made after the close of each financial year.

(4) In the case of the provincial subsidy for education except the subsidy equivalent to the education tax, one-twelfth of the subsidies due to each local board and municipal council in a year as estimated by the Director of Public Instruction is paid monthly during the first nine months of the year, the balance due being adjusted in three equal instalments on the 15th of each of the last three months of the year.

(5) Grants to local boards and municipal councils on account of the following purposes are credited monthly in the year in which the expenditure is incurred:—

(i) Percentage contributions towards the pay of medical officers employed by them, and

(ii) half the cost of medical institutions opened after 9th March 1925.

(6) In the case of non-recurring grants for capital works, it has been ordered that as soon as a local board or municipal council makes a payment for a work for which a grant has been assigned, the portion of the amount paid which is debitable to Government should be credited to the local body by the Treasury Deputy Collector on production of the prescribed vouchers subject to necessary adjustment by the Examiner of Local Fund Accounts after audit.

4. On account of the measures referred to in paragraph 3 above, local bodies will have sufficient funds for general expenditure throughout the year and there should be no occasion for them to encroach on earmarked funds. The Government are therefore not prepared to accept the recommendation of the local and municipal conferences that local bodies may be given general permission to divert earmarked funds temporarily. If by some extraordinary circumstances, there arises any necessity for a local body to temporarily divert earmarked funds, it should obtain the sanction of Government before doing so.

5. The Examiner of Local Fund Accounts will bring to the notice of Government cases of unauthorized diversion of earmarked funds by local bodies.

## DEPARTMENT OF AGRICULTURE.

## THE COTTON CROP OF 1924-25—THIRD REPORT.

[On an average of the five years ending 1922-23, the area under cotton in the Madras Presidency has represented 11 per cent of the total area under culture in India.]

The area sown with cotton up to the end of November 1924 is estimated at 2,57,500 acres as against 2,15,000 acres for the corresponding period of last year, or an increase of 19 per cent. The increase comes in all districts except Pondicherry and Coimbatore and is due to increased prices and attractive prices at sowing time. Those in a large proportion have been in some of the less important districts, e.g., Salem, North Arcot, and Chittoor where the area has more than doubled last year. The area in North Arcot is almost, entirely Coimbatore, which has made considerable headway owing to the effects of the Agricultural Department. The reduction in Guntur is due to late rains in the uplands and may be partly made up in the next season. The reduction in Ramanthapur is due to an overestimate in the last year's figures.

The area under irrigated Coimbatore is estimated at 137,500 acres as against 145,000 acres last year, or an increase of 54 per cent.

In the "Coimbatore" tract, the crop prospects are good, owing to the well distributed rainfall from September to November with abundant bright weather which has aided after-maturation. In the "Northern and Western" tract, the harvest of the early crop has commenced and several varieties are reported; the late crop is healthy and yields slightly more than normal are expected. The season has been favourable to irrigated Coimbatore in Coimbatore, but the early in Tiruchirappalli has been attacked by stem weevil to some extent. The cotton crop has had a fair start in the south.

The average loss for the Presidency works out to 102 per cent of the average. On this basis, the total yield is estimated at 510,500 bales of 480 lb. lint against 510,500 bales last year, an increase of 55 per cent. The only in the south is, however, pending and it is too early to estimate the yield with any accuracy.

3. The estimated area and yield under the several varieties are given below:—

#### THE INDIGO CROP OF 1924—SPECIMEN ESTIMATE.

[On an average of the five years ending 1915-20, the area under indigo in the Madras Presidency has represented 42½ per cent of the total area under all crops in India.]

The area under indigo up to the end of November 1924 is indicated at 57,808 acres against 52,976 acres at the corresponding date of last year, a decrease of 49 per cent.

1. The decrease in area is ground. There is very little demand for the dye and the exports have fallen considerably.

2. Yields below normal are reported from Vengalpur, Coimbatore, Chingleput, South Arcot, North Arcot, Salem, and Tiruchirappalli.

3. There is no reliable information as to the proceedings of the crop actually commenced into dye. But if the whole crop were manufactured into dye, the possible yield would be about 750 tons against 1,100 tons estimated at the corresponding date of last year. As a matter of fact, however, a large proportion of the crop is grown merely as a green dressing and is not cut and ploughed into the soil. This is a practice which is entirely new in the industry. The new yield works out to 50 per cent of the average.

4. Figures by diacritics are given below :—

4. Costeris should not be sold.

5. Any order accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Outstations, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract, plus as much as may be needed to keep the whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers stated in the schedule if they are not required.

340. Read a note by the Deputy Chief Engineer proposing, for reasons given, that the Trust's Purchase of Agents in London be restricted by cable to arrange for the supply of 5,000 barrels of best Portland cement of English manufacture.

Resolved that the proposal be approved.

341. Read Agency Resolution No. 21, dated the 15th September 1924, recording that Mr. T. W. Mole, Acting Mechanical Engineer, stated that with effect from the afternoon of the 2nd September 1924, of the six months' leave granted to him in Resolution No. 258, dated the 29th August 1924.

Read a note by the Deputy Chief Engineer, submitted by the Chairman, recommending that in consideration of the extra work and responsibility which had devolved on Mr. E. B. Rice, Workshop Foreman, consequent on Mr. Mole's absence on leave, Mr. Rice be granted an allowance of Rs. 75 per month from the 2nd September 1924 up to the date of the filing up of the post of Assistant Mechanical Engineer mentioned in Resolution No. 258, dated the 29th August 1924.

Resolved in approval of the recommendation.

342. Read a note by the Chief Accountant, recommending that the amounts of the gratuity to which the late Mr. T. Vignarajah Nair and the late Mr. M. Vignarajah Madhavan, deceased, respectively, as a member in the Trust's Chief Engineer's Office and as a gate clerk in the Trust's Traffic Department, were eligible at the time of the termination of their services with the Trust be paid to their sons, who are all minors.

Resolved that the amount of gratuity, viz., Rs. 400, to which the late Mr. T. Vignarajah Nair was eligible at the time of his death while in the service of the Board, be paid to his son T. Vignarajah Nair and that the amount of gratuity, viz., Rs. 250, to which the late Mr. M. Vignarajah Madhavan was eligible at the time of his retirement from the Trust's service be paid in equal shares to his three sons, namely, M. Vignarajah Madhavan, M. Narayana Madhavan and M. Desaiya Madhavan.

459. The Chairman read an application for the grant of a gratuity from M. H. P. Mousawany Moshley, late a clerk in the Treasury Department, who retired from the Treasury service on the 30 April 1921, and stated that the same, sanctioned by Government for regulating the grant of gratuities to officers and servants of the Board was applicable only to those who retired from the Treasury service subsequent to 31st March 1921.

Resolved that M. H. P. Mousawany Moshley be informed that the Board are unable to grant him any gratuity.

460. Read again Resolution No. 147, dated the 26th October 1920, fixing the free allowance in the supply of Rail Mills water to the employees occupying the first class of staff quarters at Comacoma and deciding that water consumed in excess of the free allowance should be charged for from the companies concerned at the rate at which the Town pays the Madras Corporation for the water.

Read extract from the audit notes on the Treasury's accounts for March 1924 suggesting that, in view of the probability of there being some consumption of water by certain industrial establishments of the quarter without at the same time being any income at all in the total quantity of water allowed free of charge to all the water-takers together, steps should be taken to fix a sub-meter to each unit with a view to prevent the possibility of any individual unit consuming, without payment, a quantity of water in excess of its free allowance.

Read also notes on the subject ending with the Deputy Chief Engineer's note stating for reasons given that it did not seem economical to incur an expenditure of Rs. 1,000 in installing the same.

Resolved that the Treasury do not consider that the fixing of meters in industrial units of the quarter is an economical proposition and therefore direct, in partial modification of the Resolution above referred to, that if in any one month the aggregate consumption of compressed steam at the quarter exceeded the aggregate free allowance of all such units, such excess should be paid for by the companies concerned in equal proportions.

461. Read a note by the Deputy Chief Engineer substantiating an extract from the audit note of the Accountant-General on the accounts for May 1921 and recommending, for reasons given, that sections of the Board be assigned to the working of the recovery of the cost of the quantity of water consumed up to the end of August 1920 by the companies at the quarter known as "passenger's lane" in excess of the free allowance contained in them in Resolution No. 25, dated the 25th April 1924.

Resolved that the sanction asked for be accorded.

462. Resolved that Comacoma R. M. Philip, R.I.M., Deputy Port Commissioner, with previous sanction to transfer, be appointed with charge of his office to Comacoma R. M. B. Dugby-Rose, A.R.M., as the Successor of the 31st December 1924.
